

# 1,600 kVA — Solar / PV transformer

In-stock reference BS-1600-20 · Ex-stock

Standard unit held in our Emmen warehouse. Specification below is typical for this reference; equivalent ratings and configurations can be engineered to order.

## TECHNICAL SPECIFICATION

### Unit parameters

|                   |                           |
|-------------------|---------------------------|
| Reference         | BS-1600-20                |
| Type              | Solar / PV transformer    |
| Rated power       | 1,600 kVA                 |
| Primary voltage   | 20 kV                     |
| Secondary voltage | 400 V                     |
| Cooling           | ONAN                      |
| Vector group      | Dyn11                     |
| Impedance (uk)    | 6%                        |
| Standard          | IEC 60076 · inverter-duty |
| Availability      | Ex-stock                  |
| Lead time         | Ships in 3–5 days         |
| In stock          | 3 units available         |

## CONFIGURATION NOTE

### Good to know

- PV-optimised, low no-load loss

To reserve this unit or request a formal quotation, contact us quoting the reference above. Values are indicative and confirmed on order; every unit ships with a full IEC 60076 test report.
